All,

Please see attached suggested metrics for phase progress monitoring, for your review in time for our 14:00 meeting on Tuesday 4/9. A few points to note:

- Aiming to keep this overview informative yet simple
- Traffic light system explained on right hand side, with suggestions for metrics based on conversations with relevant folks in Ops and Planning
- Data required for metrics should be readily available from Ops, Wildlife, EU, MTSRU
- Geography focuses on Divisions, plus specific operational and environmental focus areas
